## Atlases derived from marine raster charts

---

Atlases created from images of hydrographic offices paper charts can be purchased or downloaded directly in the app and stored in your device.

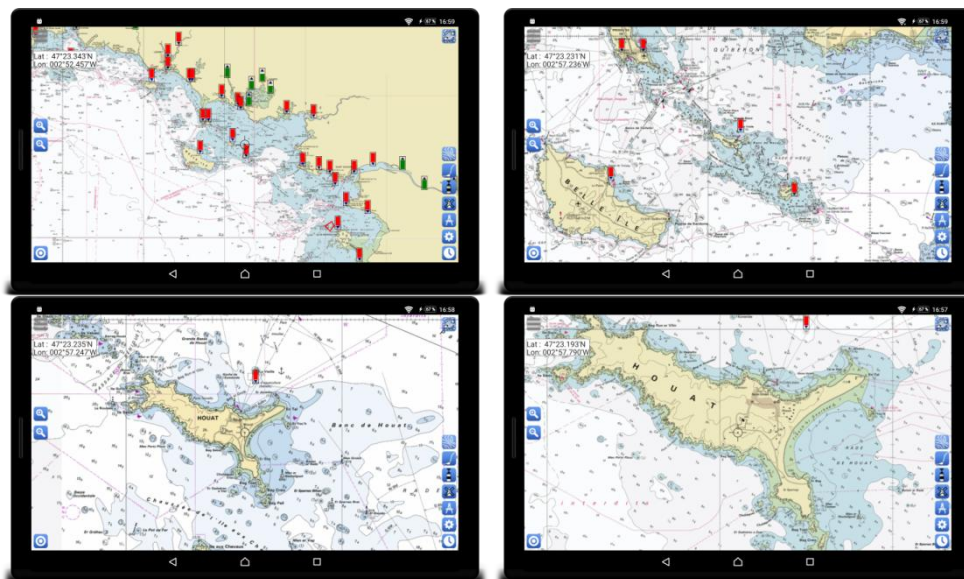

A bought atlas can be used on several devices as long as these devices are registered on the Google Play Store with the same Gmail address.

Atlases derived from SHOM, UKHO and NOAA charts are available. More sources and atlases will be added.

Free atlases are offered in the [MBTiles format](#) and can be read by all compatible apps or software. Atlases purchased in the app are in the SGTiles format similar to the MBTiles format but encrypted. These atlases can only be read by SailGrib WR.

To make sure you will always have planning charts for the entire Globe, free atlases can be downloaded. They

Each atlas includes all charts existing for the given area.

## 2. SHOM

Atlases are derived from SHOM marine raster charts and updated once a year.

The name of the atlas indicates its creation date. Thus the SHOM\_SEIN\_BELLEILE\_20161115 atlas published November 15, 2016 will be updated once in 2017.

The user can update an atlas in the year following its purchase.

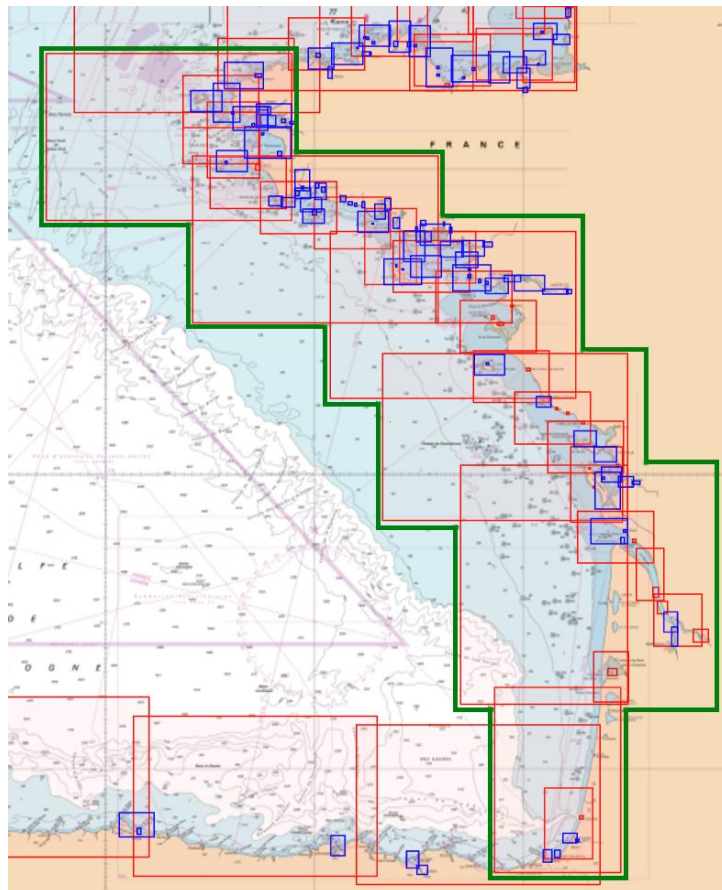

The coast of France is split in 3 regions: Atlantic, The Channel and the Mediterranean. Each region is, itself, cut into 3 to 5 smaller ones.

## 4. The Caribbean islands

A single atlas covers the Caribbean islands, from the Virgin Islands to Grenada. It includes 130 charts and insets derived from UKHO, SHOM and NOAA marine raster charts.

It is offered at the price of €75.00 excl. taxes or equivalent. The inclusive of taxes price depends on the country of purchase. It is €89.99 for purchases made in France.

Note: the detailed maps of the British virgin islands are not included for copyright reasons.

Warning:

- Soundings from NOAA charts are in FATHOMS or in FEET at mean lower low water (MLLW).
- Soundings from UKHO and the SHOM charts are in METERS at approximately the level of the Lowest Astronomical Tide (LAT).

## 6. Oceans passages and crossings

Free atlases for ocean passages and crossings planning issued from OpenStreetMap-Mapnik are available for the entire Globe. The last number in the atlas name indicates the maximum zoom of the atlas. Select SailGrib as a filter to quickly get these atlases.

Zoom 7 – World atlas

Zoom 9 – Regional atlas

Here is the list :
